how we work

As a specialist in understanding how to achieve breakthrough, Jennifer gets results using techniques that 'cut to the chase' to repattern outdated beliefs, attitudes, values and behaviours.

Going deeper than traditional coaching, mentoring, counselling and consulting, *breakingthrough* addresses issues at the level of root cause rather than effect or 'symptom'.

In *breakingthrough*, Jennifer assists her clients to move into alignment and coherence with what they actually want, by identifying where they are resonating with what they don't want, but currently have, and transforming the underlying patterns.

Using *breakingthrough* in conjunction with your existing personal and professional development programs will bring about the results you are seeking more quickly. All programs are tailored to the individual or team needs.

Repatterning is truly an extraordinary opportunity, a gift, in fact. Through working with Jenny I was able to gain insight, restore clarity and ultimately, clear those aspects of myself that had prevented me from fulfilling my potential. By identifying, understanding and then balancing limiting patterns of behaviour, I have been able to achieve new levels of authenticity and integrity in my relationships, greater awareness in setting boundaries, and innate clarity to set and take action in support of goals. Each session becomes an opportunity to peel back another layer and move forward with my life. Having sampled over 100 different alternative health modalities and disciplines over the years, I found Resonance Repatterning to be both an empowering adventure and a liberating experience!

Thank you for an amazing experience... It was just what I needed to help me get back on track... The way you work is powerful and supportive at the same time – a wonderful, synergistic experience as others shared their insights and the jigsaw began to fit together. Reclaiming my vision and reaffirming the critical role women in business in Australia are playing in redefining business and changing the business paradigm was very powerful for me. Sharing that process by being part of the group has given me a huge energy boost. I can't wait until the next session!

Amanda Ellis, Head of Women's Markets, Westpac Banking Corporation

In my role I have been fortunate to come into close contact with several of the world's leading coaches including Anthony Robbins, Brian Tracy and Dr John Demartini, as well as many other renowned experts. I was so surprised and impressed by the results that I achieved through my early sessions with Jennifer that I have continued work with her. As well as the tangible outcomes that have been achieved, I have gained so much clarity around various 'challenges', which subsequently has had a significant, positive impact on a range of key areas within my life. Each session has led to further improvements within the subjects that we have covered, and for me one of the most important aspects of the sessions is that the results have been sustained over the whole period.

The repatterning has helped me to discover another level of self-esteem, inner strength, and empowerment in the workplace providing new levels of enjoyment in my career. I am discovering that I am capable of doing things I hadn't imagined.
